Answer: C,E,F
Explanation:
Section: (none)
Explanation/Reference:
Explanation:

NEW QUESTION: 2

Which of the following options describes the rules created by selecting the Select Action rule type when creating a personalization rule?
A. Select Action rules allow pages and portlets to be hidden based on conditions expressed in the rule.
B. Select Action rules send a personalized email to a set of users that is defined by another rule.
C. Select Action rules return actions for a portlet based on conditions expressed in the rule.
D. Select Action rules return items of content from a resource collection based on conditions expressed in the rule.
Answer: D

NEW QUESTION: 3
A user has received a message from the support team that an issue occurred 1 week back between 3 AM to 4 AM and the EC2 server was not reachable.
The user is checking the CloudWatch metrics of that instance.
How can the user find the data easily using the CloudWatch console?
A. It is not possible to find the exact time from the console. The user has to use CLI to provide the specific time
B. The user can find the data by filtering values of the last 1 week for a 1 hour period in the Relative tab under CloudWatch metrics
C. The user can find the data by giving the exact values in the Absolute tab under CloudWatch metrics
D. The user can find the data by giving the exact values in the time Tab under CloudWatch metrics
Answer: C
Explanation:
If the user is viewing the data inside the CloudWatch console, the console provides options to filter values either using the relative period, such as days/hours or using the Absolute tab where the user can provide data with a specific date and time. The console also provides the option to search using the local timezone under the time range caption in the console.
