Explanation:

Explanation/Reference:

Explanation:

You can refer to class, by `.redText`, or the span, by `span#myTextSpan`.

NEW QUESTION: 2

You are a functional consultant for Contoso Entertainment System USA (USMF).

You need to create an email template for the users in the sales department and marketing department. The template must meet the following requirements:

Be named Statement email

Have a subject of Product information

Include the name of the email recipient in the body of the message

The solution must ensure that the template can be used by the users in the sales and marketing departments as quickly as possible.

To complete this task, sign in to the Dynamics 365 portal.

Answer:

Explanation:

Navigate to Settings > Templates > Email templates.

On the Actions toolbar, select New.

On the Email Templates form, enter Statement email for the title.

Enter Product information in the subject field.

To insert data fields to display information such as a customer's name select Insert/Update, and then in the Data Field Values dialog box, select Add.

In the Add Data Value dialog box, select User for the Record type and First Name for the Field value, and then select OK.

Select OK again to insert the data.

Select Insert/Update, and then in the Data Field Values dialog box, select Add.

In the Add Data Value dialog box, select User for the Record type and Last Name for the Field value, and then select OK.

Select OK again to insert the data.

Select Save or Save and Close.

NEW QUESTION: 3

Note: This question is part of a series of question that use the same set of answer choices. Each answer choice may be used once, more than once, or not at all.

Your network contains an Active Directory domain named adatum.com. All servers run Windows Server 2008 R2 Enterprise. All client computers run Windows 7 Professional.

The network contains an enterprise certification authority (CA).

You have a custom certificate template named Sales_Temp. Sales_Temp is published to the CA.

You need to ensure that all of the members of a group named Sales can enroll for certificates that use Sales_Temp.

Which snap-in should you use?

- A. Group Policy Management
- B. Active Directory Administrative Center
- C. Share and Storage Management
- D. Certification Authority
- E. Certificate Templates
- F. Enterprise PKI
- G. Security Configuration Wizard
- H. Certificates
- I. Authorization Manager

Answer: E

Explanation:

After creating a new certificate template, the next step is to deploy the certificate template so that a certification authority (CA) can issue certificates based on it. Deployment includes publishing the certificate template to one or more CAs, defining which security principals have Enroll permissions for the certificate template, and deciding whether to configure autoenrollment for the certificate template.

To define permissions to allow a specific security principal to enroll for certificates based on a certificate template

1. Open the Certificate Templates snap-in (Certtmpl.msc).
-(...)
