#### **NEW QUESTION: 1**

As a technical test analyst, you have found out during test case design that the design document is incomplete. Which is an example of a good way to communicate that problem in an email?

- A.** E-mail: "When will it be possible to receive the missing information? Test design is impeded by a lack of clarity here."
- B.** Do not communicate the problem, just log the delaying effect of the information problem and be ready to explain the delays to the test manager later.

C. E-mail: "Until I have received an updated version of the design document, I will not do any work on the test design."  
D. E-mail: "Here we go again. The developer gave us incomplete and ambiguous design specifications.  
Typical."  
**Answer: A**

### **NEW QUESTION: 2**

#### **HOTSPOT**

Your network contains an Active Directory domain named adatum.com. All servers run Windows Server 2012 R2. All domain controllers have the DNS Server server role installed. You have a domain controller named DC1. On DC1, you create an Active Directory-integrated zone named adatum.com and you sign the zone by using DNSSEC. You deploy a new read-only domain controller (RODC) named RODC1. You need to ensure that the contoso.com zone replicates to RODC1. What should you configure on DC1? To answer, select the appropriate tab in the answer area.

#### **Answer:**

Explanation:

### **NEW QUESTION: 3**
