NEW QUESTION: 2

The difference between the beginning of a project and the vision is also known as the _____.

- A. upstream relationship
- B. gap state analysis
- C. downstream relationship
- D. current state analysis

Answer: B

Explanation:

By reviewing the current configuration of a system and mapping the final status of components as described in the vision, the business identifies the gap between the two. A gap state analysis is a review of the items or tasks that are required to progress between the stages. Such an analysis is useful in creating milestone plans, implementation orders, and so on.
