NEW QUESTION: 1

A company requires an automated process to send email reminders to its employees on the first day of each month. How should the BPM application developer implement this?

- A.** Create a separate business process diagram (BPD) that polls the current date and starts the other process if it is the first of the month.
- B.** Use the BPM scheduler service which will use the IBM BPM REST API to start the process.
- C.** Add an intermediate timer event which fires on the first of each month followed by a loop back to the beginning of the process.
- D.** Configure a start message event in the business process diagram (BPD) and attach it to a time elapsed undercover agent.

Answer: D
